-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by Carlin et al. (U.S. Patent No. 6,532,691).

Carlin et al. shows in figures 1-12 a “badge” comprising a badge body (12), a fastener unit (74,76 or 102) provided on the rear surface of the badge body (the fastener unit is attached to member 16 which is secured to the rear surface of the badge body), a guiding member (16) disposed on the rear surface and including two opposite walls (adjacent the lead lines for numerals 30,34, see figure 5) and defining a guiding groove, and a holding member (40) having a retained portion (the upper end of the holding member, i.e. the portion adjacent the numeral 46 in figure 5) and a holding portion (the portion of the holding member adjacent the lead line for numeral 44, see figure 5). Carlin et al. shows in figures 1,2, and 5 that the holding portion extends outwardly of the edge area (the bottom edge of the badge body 12) in an extended position and is disposed inwardly of the edge area in a retracted position.

*Allowable Subject Matter*

Claims 1-7 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Rellinger, Winterdorf et al., Robinson, Nelson, Johnson, and Johnson et al. teach the use of display devices that include portions that slide into and out of a housing.
